

RESOURCE · FOR THE TRAN UGC COMMUNITY

Editor job post. The *template* + the *real* *one I use.*

Two parts stacked: the fill-in-the-blank **TEMPLATE**, then **MY REFERENCE** — the version I actually run, so you can see what "finished" looks like.

I've used a version of this post on Upwork and Onlinejobs.ph for two years. Every time I post it, **30–60 applicants land in the first 24 hours**. The trick isn't the post — it's the filter. Skip to the back for that.

HOW TO USE THIS

Five steps, then *post*.

- 01** Open the **Google Doc**. Link's on the template page — just copy + paste it.
- 02** Fill every **[BRACKET]** with your details. Don't leave any blank.
- 03** **Stuck?** Look at MY REFERENCE underneath — same shape, my details.
- 04** Post on **Upwork** or **Onlinejobs.ph**. Boost the listing if your budget allows.
- 05** Filter ruthlessly. Pay \$20 each for one test edit. Hire the 1–2 who nail it.

The *template.*

Replace every [BRACKET] with your details, then copy + paste into your job board of choice.

- Experience editing short-form vertical content (Reels, TikTok, Shorts)
- Able to execute from a detailed brief independently
- Strong sense of hooks + pacing

Send:

- 2–3 examples of short-form vertical videos you've edited (Reels / TikToks / Shorts preferred)
- A brief note on your editing style
- Your current turnaround time for a single short

→ Your preferred editing software (CapCut, Premiere, DaVinci, etc.)

We'll set up a short paid test edit for top candidates.

Short-Form Video Editor Wanted — Female Founder Building PixSort in Public, Hiring for Ongoing UGC Work

ABOUT THE ROLE

We're looking for a short-form video editor to join the Tiffany Parra team — a fully remote team creating content around UGC, consumer apps, and the daily reality of building PixSort in public. This is an ongoing role with consistent weekly volume.

ABOUT THE CHANNEL

Tiffany Parra · @tiffanyparraa on IG · ~9K followers, 2 years of build-in-public content. Before PixSort, I scaled Fire Pit Surplus to \$800K in 6 months as a self-taught operator. Now I'm shipping PixSort (an iOS camera-roll-sorting app) in public and posting the journey daily. Content covers building PixSort, UGC playbooks, founder life, and the systems behind running content + product at the same time. The tone is direct, grounded, and transparent — not corporate, not over-polished. Think smart editing that enhances the story without stealing the show.

WHAT YOU'LL DO

Edit short-form vertical videos (Reels, TikToks, Shorts — 15–90 seconds) from raw footage + a detailed brief. Punchy cuts, scroll-stopping hooks, on-screen text with great pacing, b-roll layering, sound design. Match the brand's visual style across every clip. Hit fast turnaround on a steady weekly volume.

WHAT THE BRIEFS LOOK LIKE

Our briefs are detailed and shot-by-shot — covering hook, transcript, text overlay specs, b-roll direction, sound effects, brand colors, and asset links. Real example brief: [linked here](#).

MUST-HAVES

- Experience editing short-form vertical content (Reels, TikTok, Shorts)
- Able to execute from a detailed brief independently
- Strong sense of hooks + pacing for UGC and founder content
- Reliable + communicative on Slack
- Portfolio with vertical edits

Bonus: experience with consumer app or DTC brand content.

COMPENSATION

\$15–\$20 per short-form video, based on experience. Long-form compensated separately if it comes up. Fully remote. Ongoing role with consistent weekly volume (~10–20 shorts per month).

HOW TO APPLY

Send:

- 2–3 examples of short-form vertical videos you've edited (Reels / TikToks / Shorts preferred)
- A brief note on your editing style
- Your current turnaround time for a single short
- Your preferred editing software (CapCut, Premiere, DaVinci)

We'll set up a short paid test edit (\$20, one video) for top candidates.

WHERE TO POST

Two platforms in, *one out*.

USE ✓

Upwork

Fast applicants, better portfolios. Boost the listing for 24 hrs to push to the top.

USE ✓

Onlinejobs.ph

Better for long-term hires at lower rates (\$5–10 / video). Slower flow, but you find people who stay 1–2 years.

SKIP ✗

Fiverr

Skip for ongoing roles. Fine for one-off projects only — you won't find the right long-haul fit.

HOW TO FILTER

The *paid test edit* is the whole game.

- 01 Skim portfolios first.** Skip anyone whose vertical reel work doesn't match your aesthetic.
- 02 Read their cover note.** Generic AI copy-paste → pass. Someone who references YOUR content specifically → flag.
- 03 Shortlist 5–10 people max.** Don't over-screen on paper. The work tells you who's real.

04 Pay each \$20 for ONE test video from a real brief. Same brief for everyone — apples to apples.

05 Hire the 1-2 who nail the test on the first try. If they need 3 rounds of edits, they're not it.

The paid test edit is the single most important filter. Don't skip it.

MORE RESOURCES

Everything *else* in the playbook.

→ Brief template (the one referenced above)

→ Full editor playbook (job post + standards + handoff)

→ PixSort · community offer \$70/yr (vs \$100)

Steal it, post it, hire someone good. I'd love to hear how it goes — DM me.
